🔗 ljieyao

Summary

- Solutions architect and technical lead with 12+ years shipping web, mobile, cloud, and integration-heavy platforms across fintech, SaaS, banking, consular, and enterprise environments.
- Hands-on across frontend, backend, APIs, DevOps, and cloud infrastructure — consistently taking products from discovery and architecture through production delivery.
- Leverages AI tooling pragmatically across the SDLC — analysis, implementation, prototyping, and quality assurance — while building AI-native products end-to-end and maintaining production-grade technical rigor.
- All engagements delivered as independent consulting or contracting work; overlapping dates reflect concurrent client engagements.

Experience

Vailley AI Solution Ptd Limited, Senior Web Developer

Remote (Singapore)

- Leading cross-functional delivery for VFS Global's visa and consular platforms — combining solution architecture with hands-on implementation across application, integration, and data.
- Delivered a Consular Dashboard with RBAC and ABAC controls, an ADR portal with structured document submission, ETL-backed operational visibility, a digital corporate visa platform for agents, and SAP Concur to OneVasco integration for VFS Global.

Jun 2025 – Present

1 year 3 months

Shift Markets, Senior Software Engineer

Remote (NY, US)

- Lead engineer for CXM Direct (worldwide multi-asset trading platform) and CRM initiatives, owning backend delivery with ThinkPHP and frontend execution with TypeScript and Next.js.
- Engineered a Unified Payment Gateway integrating 20+ global Payment Service Providers (PSPs), unifying fragmented payment workflows into a single scalable infrastructure.
- Strengthened system reliability and delivery velocity through architectural cleanup, performance tuning, and production-oriented engineering practices.

Jan 2023 – Present

3 years 8 months

InternetBrands, Senior Web Engineer

Remote (California, US)

- Maintained and improved the Dentrux Hub Forms (Online Form for Dentrux & HOP) Laravel backend — patient form management platform for dental practices, focused on reliability, performance, and scalability.
- Introduced PHP linting and unit testing standards, increasing code coverage across the codebase.
- Managed Kubernetes deployment with Helm and Rancher for scalable, reliable infrastructure.

Apr 2023 – Sept 2024

1 year 6 months

MaiDaLv, Senior Full Stack Developer

Remote (Guangzhou, China)

- Built Spring Boot, UniApp, Vue.js, and Python-based product workflows covering subscriptions, WeChat integration, and IP-risk analysis.

Feb 2025 – Apr 2025

2 months

Cake Experiential Communications Asia, Solutions Architect

Remote (KL, Malaysia)

- Led end-to-end architecture and delivery for Vue.js and Laravel platforms used in regional enterprise and campaign engagements.
- Introduced engineering standards — TDD, API governance, and backend scaling practices — for client-critical systems.

Apr 2021 – May 2023

2 years 2 months

Glints , Web Software Engineer - Built full-stack recruiter tooling for Superpowered using Next.js and Koa.js, with emphasis on workflow efficiency and usable internal product design. - Strengthened dashboard responsiveness and release quality through improved testing and deployment automation.	Remote (Singapore) Jan 2022 – Dec 2022 1 year
InnoLab Global , Senior Information Technology Consultant - Delivered cross-platform products across Angular, Ionic, Flutter, Firebase, and AWS while automating cloud delivery workflows and mentoring junior developers. - Shipped the Forest City Super App on a Turborepo + Next.js + Prisma 7 + PostgreSQL 18 + Auth.js v5 stack covering community, events, payments, partner portal, admin console, and mini-app runtime. - Built Aegis Shooting Academy (ASA) digital platform end-to-end with NestJS + Prisma backend, Next.js admin dashboard, and React Native/Expo mobile application. - Delivered a corporate website and WooCommerce product catalogue for 3V Malaysia (furniture manufacturer) using Docker Compose with a premium Apple-inspired theme direction. - Architected and led delivery for AvaEra's compensation platform — modernized legacy stack into pnpm + Turborepo monorepo with Next.js 16, Prisma 7, PostgreSQL 18, and a 15-service reward engine covering direct sponsor, team bonus, pool sharing, and merchant profit share. - Built and shipped HappyAI for Gembira Bina Sdn Bhd, an AI-powered tender document extraction and validation platform — Next.js + FastAPI + SQLite with Groq LLM primary / Ollama fallback, confidence-badged review UI, and deterministic batch ingest pipeline.	Remote (KL, Malaysia) Sept 2018 – Present 8 years
Supahands , Full Stack Developer Contributed to full-stack product development on Supahands' distributed-team platform.	Remote (KL, Malaysia) Feb 2018 – Jun 2018 5 months
The Consociation LLP , Information Technology Consultant Led full-stack delivery for products including iHeartCity and Swiiipe using Angular, NestJS, GraphQL, and Firebase with AWS-based DevOps automation.	Remote (Singapore) Sept 2016 – Apr 2020 3 years 8 months
Buddy Holdings Pte Ltd , Senior Information Technology Consultant - Architected and led delivery of the Buddy System Asia MLM operations platform — Angular + Laravel + MySQL + Kafka covering hierarchy management, complex point calculations, point redemption, inventory tracking, and family tree updates at scale. - Built intuitive agent-facing UI for tracking progress, points, and family tree structures in real time.	Remote (Singapore) Sept 2016 – Jan 2024 7 years 5 months
Fuji Xerox Pte Ltd , Embedded Software Engineer Developed embedded software for printer/scanner hardware platforms with C/C++.	Singapore Feb 2016 – May 2016 4 months
Netccentric Pte Ltd , Software Developer Contributed to full-stack web product development across digital marketing and advertising campaigns.	Singapore Oct 2015 – Dec 2015 3 months
Nexstream Sdn Bhd , Hybrid App Developer Built hybrid mobile applications bridging web technologies and native iOS/Android platforms.	Kuala Lumpur, Malaysia Jun 2014 – Jul 2015 1 year 2 months

Selected Projects

Unified Payment Gateway Specialized payment infrastructure unifying 20+ global Payment Service Providers (PSPs) into a single, high-concurrency API layer. - Architected and delivered a unified integration layer for diverse PSPs, handling complex transaction workflows, reconciliation, and automated settlement. - Secured financial operations through strict audit logging, sensitive data isolation, and robust error-recovery mechanisms.	Jan 2023 – Present
VFS Global Consular Platform Mission-critical visa and consular services platform delivering digital transformation for global diplomatic missions. - Delivered a high-security Consular Dashboard with granular RBAC/ABAC and integrated SAP Concur for automated expense and travel management. - Built a digital corporate visa platform enabling agents to manage large-scale applications with real-time tracking and ETL-backed analytics.	Jun 2024 – Present
Superpowered Talent platform delivered with scalable web architecture, backend APIs, GraphQL, PostgreSQL, and event-driven workflows. Built a responsive Next.js and Koa.js application with GraphQL integration, backend optimization, and scalable recruiter tools.	Jan 2022 – Dec 2022
Dentrix Hub Forms (Online Form for Dentrix & HOP) Dental practice patient form management platform — Laravel backend with Kubernetes deployment, PHP linting, and unit testing standards. - Maintained and improved the Laravel backend, strengthening response times and concurrency handling for patient form workflows. - Introduced PHP linting and unit testing, increasing code coverage across the codebase. - Managed Kubernetes deployment with Helm and Rancher for scalable, reliable infrastructure.	Apr 2023 – Sept 2024

Education

Master of Business Administration	University of Malaya , Business Analytics	Kuala Lumpur, Malaysia Oct 2023 – Oct 2026
Master of Computer Science	University of Malaya , Mobile Cloud Computing	Kuala Lumpur, Malaysia Jan 2011 – Jan 2013
Bachelor of Computer Science	Universiti Sains Malaysia , Software Engineering	Malaysia Jan 2008 – Jan 2011

Skills

Full Stack Engineering: TypeScript, JavaScript, PHP, Python, Java, Laravel, ThinkPHP, React, Next.js, Angular, Vue.js, NestJS, Node.js, Spring Boot, Flutter, Ionic
Architecture, Cloud & DevOps: Solution architecture, AWS, GCP, Firebase, Docker, Kubernetes, Helm, Rancher, CI/CD, deployment automation, integration-heavy platform delivery
Backend, Data & Integration: PostgreSQL, MySQL, Redis, Apache Kafka, GraphQL, REST APIs, microservices, ETL workflows, event-driven and serverless systems
AI-Enabled Delivery & Multi-Agent Systems: Expert at orchestrating LLM-based agents, RAG (Retrieval-Augmented Generation), prompt engineering, and custom GPT development to accelerate product delivery while maintaining technical rigor.
