Selected Projects

Unified Payment Gateway

Jan 2023 – present

Specialized payment infrastructure unifying 20+ global Payment Service Providers (PSPs) into a single, high-concurrency API layer.

- Architected and delivered a unified integration layer for diverse PSPs, handling complex transaction workflows, reconciliation, and automated settlement.
- Secured financial operations through strict audit logging, sensitive data isolation, and robust error-recovery mechanisms.

VFS Global Consular Platform

June 2024 – present

Mission-critical visa and consular services platform delivering digital transformation for global diplomatic missions.

- Delivered a high-security Consular Dashboard with granular RBAC/ABAC and integrated SAP Concur for automated expense and travel management.
- Built a digital corporate visa platform enabling agents to manage large-scale applications with real-time tracking and ETL-backed analytics.

Superpowered

Jan 2022 – Dec 2022

Talent platform delivered with scalable web architecture, backend APIs, GraphQL, PostgreSQL, and event-driven workflows.

- Built a responsive Next.js and Koa.js application with GraphQL integration, backend optimization, and scalable recruiter-facing workflows.

Buddy System Asia

Sept 2016 – Jan 2024

Large-scale MLM operations platform covering hierarchy management, rewards, inventory, redemption, and real-time operational workflows.

- Architected Angular and Laravel workflows for hierarchy, rewards, redemption, inventory, and real-time operational updates at scale.
